

TESTIMONY FOR BILL NO. 31-0003 BY HELEN EDWARDS

COMMITTEE ON GOVERNMENT SERVICES, CONSUMER AND VETERANS AFFAIRS

APRIL 22, 2015

Good Mr. Chairman, Senators, Ladies and Gentlemen:

I am in favor of amending Bill No. 31-0003 as this will improve the quality of life in our territory.

I live in the community know as Long path. This is one of the narrowest and longest stretch of road in St. Thomas without a means of exist. Therefore, the way a person enter this road is the same way they must exit. As a result of abandoned or unregistered vehicles on our street, many faced confrontation with persons who refuse to back up because there is no place to pull to the side and must back up all the way to the beginning of the road to leave a person exit before they can proceed up the road because these abandoned or unregistered cars. Also, delivery drivers such as UPS, DHL and taxi drivers refuses to make deliveries stating that there is no place to park so they can make their deliveries or drop off their passengers. It also hampers our garbage pick-up. Many residents raced up or down honking on their horns in order to avoid meeting another vehicle on the road. Alleviating this problem will do well for our community.
