DEPARTMENT’S OVERVIEW

The Virgin Islands Fire and Emergency Medical Services (VIFEMS) was officially incorporated in 2022 to unify fire protection and emergency medical response across the territory. The agency currently operates *11 fire stations*, including one sub-station on Water Island, and maintains two administrative offices territory-wide.

VIFEMS focuses on *four primary areas of operation*:

- **Suppression Unit:** Serves as the first responder tasked with the control and suppression of fire outbreaks as well as the containment of hazmat incidents.
- **Arson Prevention Unit:** Tasked with educating the public, investigating the origin of fires, business inspections, planning for the construction of new buildings for public use, and ensuring fire safety code compliance. With a goal of elevating territorial fire awareness, this unit is tasked with reducing the number of fire related incidents.
- **Administration Unit:** Provides effective management and financial support ensuring the success of the other units.
- **Emergency Medical Services Unit:** Manages ambulatory services territory-wide.

The mission of the Virgin Islands Fire & Emergency Medical Services is “To save lives, protect property and the environment while enhancing the quality of life through public education, fire prevention, code enforcement, and response to fires, medical emergencies, hazardous materials incidents, and all other man-made or natural disasters.”
