Serenity Nest, LLC – Zoning Change

Good day Ms. La Place

I will like to express my support for the Re-zoning of Serenity Nest, LLC.

I am a member of the St. Croix Hiking Association, Inc. As a member I have travelled to most of the Caribbean Islands. St. Croix my home is by far one of the best islands to live on.

I have experienced many cool, ecofriendly venues on these islands to name a few.

St. Kitts, St. Lucia, Dominica, Grenada, Montserrat, Barbuda, Virgin Gorda, Cuba, Dominican Republic, Barbados, Trinidad, Tobago, St. Maarten, Guadeloupe, Antigua, ABC Islands, Venezuela, Jamaica, Guyana the list goes on.

Serenity nest is such a cool, relaxing space. It can be a treasure to everyone and the island.

I am certain there can be a compromise made with the neighbors with regard to their concerns.

As we know this is expected. There is always resistance to change. Development is necessary to have progress. The area is really a green zone and Mr. Nelson is all about green space gardening, farming, one with nature.

Thank you for your consideration in this matter.

Sincerely yours,

COLLINGWOOD & ASSOCIATES PC
