RE: Mitchell Matthew/Just Right Trucking  
Concrete Block Manufacturing Plant

To Whom It May Concern:

Mitchell Matthew has provided valuable trucking and delivery services to All Points Construction for 20 plus years, and has proved to be one of our most reliable and dependable sources for getting building materials to our job sites on time and at a reasonable cost. Mr. Mitchell himself is personable and courteous, and his reputation personally and professionally on St. Croix is impeccable.

Mr. Matthew's proposed new venture to establish a manufacturing plant for concrete blocks on his property in Orange Grove, St. Croix will be a welcome extension of his business and a much-needed facility on St. Croix.

Currently concrete blocks must be imported to St. Croix from the US Mainland at a considerable cost to construction companies on the island. Mr. Mitchell's block manufacturing plant will not only ease ever rising construction costs, but will also save local contractors considerable time and freight charges, as the concrete blocks would be locally available.

Additionally, the new concrete block manufacturing block plant will create employment opportunities for St. Croix residents.

I wholeheartedly support the proposal for the concrete block manufacturing plant and the benefits it will provide to contractors and the local community.

Sincerely,

Michael D. Robbins, President  
All Points Construction, Inc.
