**Subject:** [EXTERNAL MAIL]ZAC 22-14 Rezoning Application

You don't often get email from yally@aol.com. [Learn why this is important](#)

Dear DPNR Officials,

I am a resident and home owner in Estate Orange Grove E. I am writing to implore you to seriously look into and not approve the zoning/change variance application. It would be devastating for the area to have a cement block plant at this location. There is already considerable dust from the existing business Just Right Trucking. There are mounds of dirt that sit piled up creating dust particles in the area as trucks drive in and out of the business. I am asthmatic and never drive that road with windows down. When it is breezy my home windows are closed too. I can't imagine a cement block plant in the area which would create more toxic dust and horrible noise. Please consider the residents of the area and also the new housing that is currently being constructed in Hummingbird Rest. It is a residential area. Please consider the environmental hazards. Why can't the business be directed to an existing industrial area? Moreover, please drive by the area and see for yourself. Thank you for your consideration.

Sincerely,  
Yvette Lewis
