Taxi Association Digital Transformation (TADT)

These are the initial draft requirements for Taxi Association, with these requirements that have been identified so far can be a good start to taxi associations ultimate agenda/objectives. As we worked closely with the director of the Taxi Association Commission we have come to an understanding and importance on getting TA fully digital, modern, and efficient. You all will find in our estimate a well-priced and competitive solution that will provide the TA what all they need to improve their capabilities and increase mobility for action.

Taxi Association Digital Transformation (TADT) Rough Draft (Core Capabilities and functionalities):

- Creating a modern and responsive website/app that will help taxi association track and serve the community better.
- Transfer all hardcopy and analog files to digital.
- Updating, creating, and tracking all profiles for the taxi association
- Creating a pay portal being able to pay for the taxi fees, dues, and penalties (Mobile, being able to pay on the go).
- Tracking the different medallions statuses (Current, expiring, due, past due, etc.)
- Capable of integrating with new or existing POS hardware.
- Dedicated Computers for staff
- Camera system

Here is our breakdown of our price point for your modernization effort (Negotiable):

PHASE 1 – Digital Transformation
