

To whom it May concern,

I have know Miguel Santos Jr ( DJ poppy pops) since early childhood. I have interacted with his parents and his entire family on the baseball field. We both grew up in Frederiksted together.

Miguel was an excellent Baseball player during his childhood as well as his adulthood - playing at All-Star level. His love for baseball has now led him into coaching with the Cardinals little league baseball team.

He is a major part of our current baseball camp that is held every year at Basilico Baseball Park.

Having seen Miguel Santos Sr play at a high level and Miguel Jr now coaching his son and others is a high honor. Seeing his DJ academy that's helping young Virgin Islanders find a career in music is nothing short of amazing.
