

Good afternoon,

The U.S. Postal Inspection Service received your request for testimony on Bill 35-0243.

Unfortunately, we must respectfully decline the opportunity to testify on this matter. However, please know the Postal Inspection Service works aggressively at all levels of our organization to prevent the domestic and international transportation of firearms through the mail. Postal Inspectors seize firearms both through targeted interdiction operations and incidental to other investigations, such as narcotics.

Please do not hesitate to contact me if there are other concerns regarding this matter.

Respectfully,

Brian

Inspector Brian Bone
Program Manager – Congressional Affairs
