#### Comments/Concerns:

Was glad for the information shared. However,  
this Annual Plan was not designed for the betterment  
of the VIHA tenants, I do hope that HUD and their  
team will consider the "HARSH" impact that this plan  
will cause on so many families. So many families  
have paid thousands of dollars as renters and now  
to get a slap in the face. This is what it is, get on  
board or jump off. ~~So~~ unfair and unconscionable!!  
I am not looking for No hand outs! Be Fair and  
honest with people. put yourselves in others shoe.  
Be Fair! Be honest! Be upstanding!

**Comments/Concerns:**

Are only flat rent tenants rent increased? <sup>if yes</sup> why?  
Have you considered Housing Police returning?  
When do you plan to enforce Community service  
as some tenants keep the archway filthy and  
they throw their garbage over the back porch.  
Suggestion: Have training classes for tenants who are eligible  
to transition into Home ownership.

**Comments/Concerns:**

Maintenance to be done in a timely fashion.  
The trees need to be trim, so that the leaves/seeds  
don't clog the gutters. Pictures included.  
The common areas need to be taking care of.  
The abandon/unoperating cars should be  
taking care of 2/3 time per year.  
VIHA need to hire electricians, plumbers,  
carpenters, landscapers, and roof helpers.

Turnover

half of the safety lights are not operating properly / not operating at all.

The upper part of the buildings to repaint or replace.

And the least to be revisited.
