

Good Morning, Senator Bolques,
Please see below for the latest status regarding outreach and confirmations for the upcoming **CYASP hearing scheduled for June 11, 2025**, regarding the Paul E. Joseph Stadium Project:

Derek Gabriel – Commissioner, Department of Public Works

- I spoke with Mr. Gabriel directly at **340-344-6287** (personal cell).
- He asked that we direct future communications to his **work cell: 340-642-1300**.
- Mr. Gabriel stated that he will be off island **for the entire month of June**. He also shared:
 - He will attempt to provide a written testimony, though he's unsure if he can commit.
 - He expressed that a letter alone **may not be sufficient**, as senators are likely to ask probing questions.
 - He does **not feel comfortable sending a representative** in his place, as others are not as fully informed.

Dear Commissioner Gabriel,
Good Morning,

Following up on our recent conversation, please find attached the formal **invitation to the June 11, 2025, CYASP hearing** regarding the Paul E. Joseph Stadium Project.

As discussed, I understand that you will **not be able to attend the hearing, as you will be off-island for the entire month of June**. You indicated that you will submit a **formal excuse letter** in your absence, along with **last month's progress report** for the Committee's review and inclusion in the hearing record.

Additionally, per your recommendation, we will contact the Office of the Senate President to request the most recent progress report on file.

Please don't hesitate to reach out if you need any assistance. We appreciate your time and continued collaboration.

Thank you!

Judy Torres
