

**CARYN HODGE**

REAL ESTATE BROKER  
BLUE SKY REAL ESTATE

**Objective**

I understand the importance of striking the balance between historic preservation, modernity and the economy. Our built heritage deserves preservation. Our community deserves to understand the economic importance of our built heritage. I hope to use my role on the commission to not only enforce the laws regarding historic preservation, but also to engage and educate the community about its importance and work with owners of historic properties to save and maintain their family legacy and the community's built heritage.
