

THE RESIDENCES AT 340 NORTH

WELCOME TO THE FUTURE OF MODERN LIVING

Imagine a vibrant eco-friendly community designed for comfort, connection, and innovation. 340 North is more than a residence; it's a movement toward sustainable modern living in harmony with nature. Join us as we build something extraordinary!

WHAT MAKES 340 NORTH SPECIAL?

Our homes are built with **Insulated Concrete Forms (ICF)** for energy efficiency, hurricane resilience, and long-lasting durability. They feature smart design elements that reduce environmental impact while enhancing indoor comfort.

Located in scenic Rosendahl, St. Thomas, this community blends sustainability with modern living through urban gardens, trails, and open green spaces.

OUR VISION

At A.C. Development, we are committed to creating an 80-unit community where residents can thrive. Our focus is on sustainability, energy efficiency, and modern design to craft a neighborhood that is beautiful, resilient, and built for the future.
