Re: Objection to Rezoning Application CCZP0069-25 (Parcel 6a Beeston Hill)

Dear Ms. LaPlace-Matthew,

I have lived on St. Croix for 3 years, 8 month and am a proud, active member of this community as a Certified Orthotist providing full time orthotics and prosthetic care to the US Virgin Islands.

I strongly object to rezoning Parcel 6a Beeston Hill from R-1 (Residential – Low Density) to B-2 (Business – Secondary/Neighborhood). While I support housing development on this parcel, rezoning all 15.94 acres to B-2 would put this land at risk for commercial use rather than preserving it for homes.

The right and privilege of all Virgin Islanders to have residential lands preserved must be safeguarded for those here today, those seeking to return home, and for future generations. Housing development is already permitted under the existing residential zoning. A B-2 designation is unnecessary and opens the door to commercial development that will erode the availability of residential land.

I respectfully urge DPNR to deny the B-2 rezoning request and instead preserve Parcel 6a Beeston Hill for residential use, thereby safeguarding the privilege of Virgin Islanders to access and enjoy land intended for housing.

Thank you for your consideration.

Respectfully,

Peter King
